

Wittersham CEP Primary School

On a voyage of discovery: together we learn, grow and achieve.

Impact and evaluation of Sports Premium Allocation and Expenditure

At Wittersham CEP School, we recognise the contributions of PE to the health and well-being of the children. We believe that an innovative, varied PE curriculum and extra-curricular opportunities have a positive influence on the concentration, attitude, academic achievement of all of our children. We embody a culture of high expectations for all.

Our Primary School Sport Funding will enable us to, for example, continue and extend our provision through employing sports professionals, entering into more competitive sports competitions and training our staff to deliver in-house quality PE sessions.

Our PE vision is to support excellence in PE through promoting healthy lifestyles, engaging in competitive activities as well as the enjoyment of taking part. We acknowledge and pursue to develop the intrinsic link between children's participation in sport/physical activity and their social and academic development. We aim to develop competence to excel in a broad range of physical activities, focusing on skills and physical activity for sustained periods of time for all.
